Mrs. Laura S. Webb.

Decided the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and not now until I have passed the climax.

Female weakness, disordered stomach, falling of the womb and nervous troubles do not wear off, they follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life, Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell \$1 bottles of Wine of Cardui.

WINE OF CARDUI

**TAPE
WORMS**

tape worm eighteen feet long at the end of the scene after my taking two bottles. This I am sure has caused my health for the past three years. I am still on Cascarets, the only cathartic worthy of notice by sensible people.

GEO. W. BOWLES, Baird, Miss.

Pleasant, Palatable, Painless, Taste Good, Do Good, Never Sickens, Weakens, or Grips. No. 25, 50, 100. **CURE CONSTIPATION.** ...
Solely, Chicago, Kansas, St. Louis, Mo., 211
#9-TO-BAG child and guaranteed by all druggists to **CURE TOBACCO HABIT.**

**Furniture and
Undertaking**

At all times am keeping a nice line of Furniture, Wall Paper, Telescopes, new shades, Linoleum and Oil Cloths. A fine line of Ingrain Carpets, samples, Brussels, Moquette, and I make piles of Picture Frames.

Also my Collins and Undertaker's supplies are fine and a large line to pick from. I have robes and shoes, white nose, I have taken a thorough course in Embalming and will take good care of bodies and preserve them with fluid. I furnish Pictures enlarged and many other things.

WHEAT IS YIELDING BIG.

Contrary To Expectations It is Turning Out Well.

Now that the threshing season is well begun, it is becoming more and more evident every day that the yield is going to surpass expectation in quantity and probably in quality also. Wheat will likely average over twenty bushels to the acre the county over. This would be a big yield on top of the big yield of the two years previous.

Walter Melugin, eight miles up the river has threshed 2,300 bushels from 107 acres and is not done yet. From a count of the shocks, it is estimated that the rest will yield 700 bushels. This would be a total of 3,000 bushels or nearly thirty bushels to the acre. He got 60 cents a bushel for it.

A farmer near Maple Grove, whose name was not remembered, threshed 1,700 bushels from forty acres, which would be 42 1/2 bushels to the acre.

In the Tucker's food neighborhood, Geo. Hickman's wheat yielded twenty-two bushels and Ed Mansfield's thirty-two bushels to the acre.

Geo. Knight, of near Knights' station had two pieces of wheat, one of which yield 22 and the other 27 bushels to the acre.

Dick Fugit, of 2 miles west of Avilla, averaged 25 bushels to the acre. It averaged 50 pounds to the bushel and brought 90 cents.

W. H. Black had a lot of tangled wheat which it would have pleased him had it averaged 15 bushels to the acre. When he threshed it made nearly 25 bushels to the acre.

Jacob Metaker, who has just started up a threshing outfit in the northern part of the county, was in town today. He says he has threshed only 4,000 bushels so far, but it has averaged over 20 bushels to the acre.

It there are any light fields in the county, our correspondent by a Passa reporter has failed to reveal them. — Carthage Press.

The Battle Ground Of Modern Thought.

THE CHICAGO TRIBUNE-RECORD has conceived the unique idea of assigning a page of its Sunday edition to the public for the free discussion of important questions of the day. Under the head "The Battle Ground of Modern Thought" an opportunity is offered to the public for the same discussion of all problems engaging the attention of the American people. Writers of ability present their views on subjects not generally treated in the daily press, and accomplished readers generally are invited to join the debate. The fairest, most forceful and original contributions are published. The following are a few of the subjects which have been discussed since this department was first organized:

- "Is Blacklisting Within the Law?"
- "Trusts and the Proper Way to Regulate Them."
- "Great Peril That Besets Pagan China."
- "Liquor Trade and Its Evil Consequences."
- "Are Free Books Wanted in Public School?"
- "Inhumanity to Animals."
- Tax Records—RECORD disclaims any responsibility for the dogmas upheld, the theories advanced or the panaceas advocated. It reserves the right only to preserve order, to keep out personalities and rancor, and to see that good temper and candor characterize the discussions.

Flour

To insure good bread use the "Top Notch" the Famous Hard Wheat Flour, from Hoisington, Kansas. The "Mo. Pacific" is almost as good and comes a little cheaper. If you want a soft wheat you will be pleased with "Golden Leaf" or "Oven Buster" which we also handle. Try one of these brands. **R. W. SHEETS**

If your Bicycle becomes frightened and relieves itself of your avoirdupois apply

Dr. Tichenor's Antiseptic!

immediately, not to the bicycle, but to that part of your anatomy most feelingly affected by the law of gravitation. You'll be delighted with the result of the application.

NETTA ROBERTS, Secretary.

Small Leaks.

Milking streams of milk outside the pail.
Allowing the bread to turn white baking it.
Overturning the ink bottle on the table spread.
Breaking the glassware by pouring hot water on it.

Patching old clothes that should go in to the rag bag.
Throwing pieces of new cloth into the paper and rags.
Occasionally throwing out a teaspoon in the dish-water.

Using napkins for holders, dish cloths or wiping towels.
Letting the suckers grow upon the apple trees year after year.

Neglecting to keep the potatoes where they will not freeze.
Using every small board about the premises for kindling the fire.

Cutting in too deep when taking the rind from off the slices of pork.
No, lecting to drive the one nail that will save the fence from falling.

Not attending to the hogs' heads after butchering, before they spoil.
Spattering water on the hot lamp chimneys and thus breaking them.

Leaving pieces of hard soap in the tubs of wash water to be thrown away.
Throwing the clothespins upon the ground to become rusty and decayed.

Leaving the implements in the field all winter where they were last used.
Not spozing the grease, wad out of the hot seraps when trying out the lard.

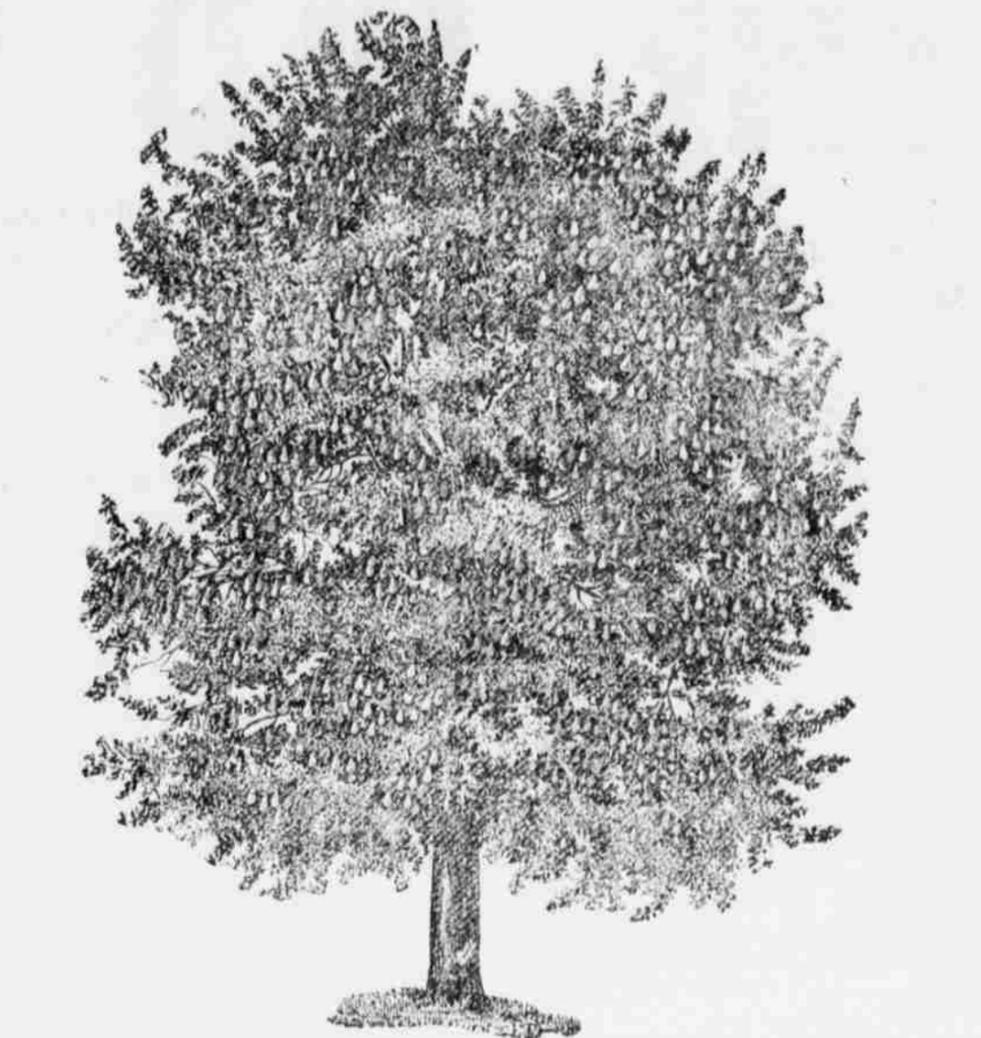

Scraping iron kettles with silver knives, or toasting bread on silver forks.
Letting the apples fall from the tree and lie upon the ground until they are spoiled.

Making more tea or coffee at each meal than is used and throwing away what is left.
Allowing the hammock to hang in the sun and rain, until it becomes faded and weakened in texture.—Farm Journal.

Don't Fail To Try This

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It is a wonderful tonic for rundown systems. Electric Bitters positively cures Kidney and Liver Troubles, Stomach Disorders, Nervousness, Rheumatism, Sleeplessness, Neuralgia, and expels Malaria. Satisfaction guaranteed by Webb Bros. Only 50 cents.

The Original Lincoln Pear Tree

THIS above is an exact reproduction from a photograph. Tree 48 years old 15 feet high, 2 1/2 feet in circumference, never blighted or winter killed in any winter. This tree is commercial pear known. Has produced 40 bushels in one season. Originated at Jasper, Mo.

The LINCOLN has a very close, level, fine texture of wood. It is more difficult to propagate, and roots much more to propagate than any other variety of pear. The tree is so hard and firm, but it does not unite readily with another wood. This manner of maturing its wood is such a perfect way, largely accounts for its robust habit and remarkable record of warding off attacks that prove fatal to other varieties.

Our method of propagating and the cost of our trees, per acre to the many valuable traits of the parent tree, and we have improved one or two features quite perceptibly. You cannot afford to raise cheapness or allow prejudice to stand in your way. Prices are reasonable. Orders are now being taken for Fall delivery. Show your interest, setting out a pear orchard, our representative can show you convincing proof of the superior qualities of the LINCOLN PEAR. If he fails to call on you, address him a Jasper, Mo.

J. C. WEBBER, Agent, Jasper, Mo. **W. E. JONES CO.**
